

I NEED YOUR HELP.

Actually, a lot of people need your help. Beating cancer requires support from a medical team, healthcare workers, and especially friends and family like you. That's why I'm asking for your help.

I want to do my part to stop cancer, which is why I'm participating in the 2026 Tri for a Cure, benefiting Maine Cancer Foundation on Sunday, July 12th. Whatever you can give— from \$50, \$75, \$100, or more— you'll be glad to know that 100% will go to help Maine Cancer Foundation.

Maine Cancer Foundation (MCF) leads a statewide effort to reduce the impact of cancer in Maine, investing in the most promising and effective programs that:

- Advance cancer prevention
- Increase screening and early detection
- Improve access to care for all Maine people.

Join us in our vision to empower Mainers with the knowledge, resources, and support to reduce cancer and promote healthier individuals and communities across the state. **The fight against cancer requires help at every level and we need you.**

Please join in the fight against cancer by contributing today. In return, I promise to put everything I've got into finishing strong! Thank you.
